What will you be doing?

As an AI Specialist at our AI Center, you are the engine behind our digital transformation. You help the organization create immediate added value by unlocking the power of Generative AI and intelligent automation. Your playground consists of the latest Microsoft innovations: Microsoft 365 Copilot, GitHub Copilot, Copilot Studio, and Azure AI Services. You are the strategic partner who empowers departments to identify, implement, and embrace AI solutions, fundamentally boosting productivity, accelerating innovation, and improving work processes.

- **Scouting for Impact:** You inventory high-impact use cases for the deployment of Copilot and Azure AI services across all our business domains.
- **Technical Leadership:** You advise on both technical and functional levels regarding the optimal deployment of M365 Copilot, GitHub Copilot, Copilot Studio, and Azure AI Services.
- **From Idea to Value:** You rapidly develop Proof-of-Concepts (PoCs) to demonstrate the tangible value of cutting-edge AI solutions.
- **Adoption Accelerator:** You are the driving force behind adoption, through inspiring demonstrations, hands-on coaching, and targeted training.
- **AI Governance Champion:** You work closely with IT, Security, and Data Governance to ensure safe, responsible, and compliant AI implementations.
- **Performance Monitoring:** You monitor the effective and correct usage, performance, and adoption rate of AI tools across the entire organization.
- **Feedback Loop Expert:** You translate user feedback into concrete, next-level improvements or the development of completely new AI services.

What we ask of you

You are the hands-on innovator with a vocational or university degree level of thinking and a proven track record of realizing digital transformation.

- A minimum of 3 years of relevant experience with the Microsoft Cloud (M365, Azure) or as a software developer in a complex environment.
- In-depth knowledge or direct experience with one or more of the defining technologies of the moment: Microsoft 365 Copilot, GitHub Copilot / Copilot for Developers, Copilot Studio (Power Platform), and/or Azure AI Services (Cognitive Services, OpenAI, Machine Learning).
- You are an expert in stakeholder management who effortlessly translates business needs into scalable, technical AI solutions.
- Experience with change management or the successful setup and guidance of adoption programs.
- You are a social team player who understands the power of collective intelligence.

In addition, you have the mindset to succeed:

- **Analytical yet Results-Driven:** You see through complex problems and focus on measurable AI results.
- **Strong Communicator:** You speak the language of both business and technology.
- **Proactive & Innovative:** You don't wait, you create the next innovation.
- **Practical Enablement:** You are the mentor who truly helps end-users and teams move forward.
- **Simplifying Complexity:** You make the most complex technology understandable and accessible to everyone in the organization.
